DETAILED ACTION

Election/Restrictions

The previous lack of unity stated in paper no. 7 dated 12/4/01 has been restructured in accordance with the paper at 5A.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-17, 22-23, 25-29, and 35, 37-40, 42-45, 47-49 drawn to compounds of formula Ia and VI, compositions, and a method of treating.

Group II, claim(s) 18-20, 36, 41, 46, drawn to a polymer.

Group III, claim(s) 30 -34, drawn to a method of disinfecting

Group IV, claim(s) 24, drawn to a surface coating composition.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I, II, and IV are each different types of product, whereas Group III is a method of disinfecting.

A telephone call was made to Jeffrey Townes on 4/23/01 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
